

WADDLER PROGRAM

Our **Waddler Program** provides care for children between the ages of **12 to 24 months** depending on their developmental readiness. We offer many activities to foster their development and learning, and strive to help them achieve their fullest potential. Children develop at their own rate and we encourage their learning at whatever stage they may be.

Waddlers are looking at the world with amazement! They are crawling, pulling up and beginning to walk. They enjoy new experiences and look forward to each day with much anticipation for what they will get to see and do!

Our waddlers will take part in "group time" activities for short periods of time during the day, where they will enjoy books, songs and learning activities. Art is often one of their favorite times of the day and it is done on a daily basis! The teachers will do a lot with their hand and foot prints as well as letting them enjoy textures with pudding and vegetable painting! Free play is also an important time of the day where they will work on more social issues such as sharing, taking turns, making sure they are using their words, etc. They will enjoy free play both inside and outside. The children also will be going on rides in the buggy where they get to enjoy the great outdoors.

Parents will need to provide the following for their child:

1. Diapers & Wipes
2. A Nutritious Lunch (They are learning to feed themselves so finger foods are best)
3. Bottles, cups, drink boxes, etc. for the day
4. An extra set of clothes
5. A crib size sheet and light blanket (for full day)

Each day parents will fill out an Infant/Toddler Report, telling what time their child last ate and slept as well as give any special instructions for the day. When the parent comes to pick their child up, they will receive the form back with all of the day's information completed for them. It will tell them how and what their child ate, how long they slept, what they had for snack, the activities they enjoyed, and their diapering results for the day.

We know that being separated from your child can be difficult on both of you. We encourage you to make us aware of anything we can do to assist you in making this a great experience.

* * * * *

Most of all, we desire for the children to know that Jesus loves them
and wants to be their Lord and friend.
